The Southern Question.

Springfield Republican. Mr. Blaine's resolution has hardly attracted the attention or aroused the interest that he anticipated. The Democratic replies, so far as they have adtressed themselves to the main question, have rested on the obvious fallacy, which we have before pointed out, of essuming that the negro vote was bul!d) and, wherever it failed to be cast for the Republican party. On the whole, the debate marks an approximation in the temper of public men to the moderated passions of the mass of the people. Mr. Thurman succeeded in amending the resolution to cover northem intimidation of voters, the assessment of office-holders, and the doings Of United States supervisors, like Johnny Davenport at New York. The instruction to the committee to sit with open doors was defeated, and the resolution finally passed yesterday, with only six votes against it. The investigation will prove a harmless way of gaining time, which is needed more than anything, to establish the rights of the colored voter under the iaws. The trials of persons for fraud and intimidation in South Carolina before

ernment. It is not that the condition

of the city is deplorable, as a contrary state of facts exist; but that to insure the utmost economy in expenditures, it is necessary to devise a mode of administration somewhat removed from the fluctuations and uncertainties ties of politics. In other words, it has been proposed, in a report from a Cincinnati Commercial. special committee of officials and Col. P. Donan has reprominent citizens, to place the executive work of the city in the hands of men specially skilled in the duties to be intrusted to them. The plan is not explained in detail, but the conclusion reached is, in brief, that to place such work as paving and repairing the streets, building of sewers etc., in the charge of men whose only merit is skill in manufacturing and directing popular sentiment, is an act of supreme folly. The committee suggests, for instance, that all the financial operations of the city be committed to a body of three getlemen of acknowledged integrity, ability, and financial skill, these to be appointed as follows: One member by the city councils, one by the Ontario Provincial Government and one by the Appeal Court; or it is proposed that one, if not two, of the Financial Board be appointed by the representative commercial institutions of the city.

Good Uses of a Tramp Law.

The stringent tramp law passed by the last New Hampshire Legislature has served admirably its purposes, the Manchester Mirror reports, ridding the State of waudering foot-pads, making life and property comparatively secure, and permitting women and children to go and come unattended without danger of insult and injury. The tramps have evidently taken the law for what it was intended a notice to quit; but it is questionable whether a statute whose workings are so favorable in one State would answer as well for a larger extent of country, all New England for instance. Vermont has adopted a law similar to that in New Hampshire, and its results will be watched with interest. For the present making tramping in the unpleasant sense of the term, crime, must be considered an experiment, yielding signs of local success.

Greenbacks at Par. Greenbacks at par. Should misfortune visit us to such an extent as to destroy the parity of value between greenbacks and gold; it would be wise to simply quote the former at a discount, regardless of their legal tender quality. Had this been possible from 1862 till now, the public mind would not have become so muddled on the money question, and a typical Indian dency. In the quiet old town of Fred- office-seeking hordes, he will be hard erieksburg a gang of them was discovered the other day tracking a Virginia army and navy and the whole weight corpse which was supposed to be Stewart's; another lot were discovered at the same time in Chicago; and a third party have just been found loafbeen planted. They were waiting there for a fair opportunity to dig up the corpse, make for New York with it and claim that \$50,000 reward. The detectives after Stewart's body will soon become as dangerous, as great public nuisences as the ghouls who stole the cele-brated "stiff."

The Grand Jury System.

Letter to the Charlotte Democrat I notice from an extract taken from your paper that you favor the idea of a belishing the Grand Jury, and I write you to say that the people of this secon almost to a man agree with you in this respect. During the canvass here last Summer the matter was fully discussed by one of our members elect, and he showed the folly of continuing this useless and expensive system, for he showed that it cost the people of this county about \$1,500, besides an incalculable amount of annoyance, and engendered much ill feeling and strife and the sooner it was gotten rid of the better. He showed that many States in the Union had abolished it, and the universal verdict was that the Courts got along much better without it, and at a great saving to the people.

Well, if Buncombe county could save \$1,500 by abolishing her Grand Jury, think what the whole State would save-about \$150,000!

The Mule au Element of Danger.

The mule is forcing himself into considerable prominence just now. Following the unfortunate accident in South Carolina, which threatens to deprive the South of one of its noblest sons and truest representatives, comes the Earlington affair. On last Thursday the whole population of Earlingtor. Ky., where th St. Bernard coal mine is situated, were startled by a terrible shock, which shattered windows. knock, ed over chimneys and destroyed buildings. It was at first thought that this was an earthquake, and the frightened population dashed into the streets, hardly knowing what to do. It was soon discovered that the shock was not that of an earthquake, but an explosion in the mine. The whole city turned out, the women and children weeping and crying over the supposed loss of husbands and fathers. They gathered around the mouth of the pit, from which poured clouds of smoke. For more than an hour an agonizing suspense prevailed. Then from the pit pense prevailed. Then from the pit slowly emerged man after man, until all were found to have escaped but one The rescued men soon explained the hate and strife. The calm judgment of explosion. PAT DONAN'S VIWES.

Joe Johnson's Frominence--An Interview With Hayes-The Coming Danger to the Republic.

Col. P. Donan has recently been visiting Virginia and Washington, and is well informed about political matters that are attracting the attention of the public. One of the reporters of the Commercial had an interview with Colonel Donan, and received from him a great deal of information that is of

public interest.
Reporter—Speaking of General Joe Johnston, what position will he be

apt to take in Congress? Col. D .- He will rank among the first men in that body from either section, North or Sonth. We have been in the habit of thinking of him only as a soldier, but he is really a man of wenderful range and accuracy of information in regard to the history of our own country and of other nations. Of unwavering integrity and couarge, a close observer of current events, and affable and polished in social inter-course, I predict that Goneral Johnston will rank among the ablest and best of Southern representatives. cipal government will be awaited with

Reporter.-I see from the telegraphic reports that you had an interview with President Hayes as you came through Washington. Have you any objection to stating the substance of it?

Col. D.-None at all; and I suppose I had better begin by giving my reason for calling on Mr. Hayes. As you per-haps remember, I had a decidedly free and easy correspondence with him while the Electoral Bill was pending, and I felt some natural curiosity to see him. Besides I wished to express to him, personally, the appreciation that all thinking men in the South bave of his efforts in the direction of a complete restoration of the constitutional rights of the Southern States. He is himself disposed to do his duty, which in these times, is a rare thing in a public official, and I think that the people of the South should stand by him as one man in his every act that looks to the entire healing of all the old sectional enmities. A few noisy blatherskites like Ben Hill in the South, and Dana, of the New York Sun in the North, are doing all they can to exasperate the the President and drive him from his concilliatory and patriotic policy towards the Southern States and people. But I cannot see what we have to gain responsible therefor. While doubtless by any course that tends to array the Federal Admistration with all its power State, would be glad to see law and and patronage against us in the Presi- justice have their course, and Swepson dential campaign of 1880. This will, in all prob-ability, be speedily followed by a reorganization of the Southern State Governments-a sort of duplex-elliptic reconstruction, on the pretext of maintaining a republican form of Government, and the right of freedmen's suffrage in those States. There will come an enlargement of the standing army, rapid consolidation, wild extravagance and expenditure, perhaps revolution

hail Matter to be Entirely Prepaid.

The leading proposition of a bill that has been agreed to by the House Committee on Postoffices and Post Roads is that all mail matter must be entirely prepaid. If, for instance, a letter happens to weigh a little over half an ounce, and has but a single three-cent stamp on it, this letter is to be retained in the office where it is posted, and the sender, if known, notified to pay the balance. If the sender is unknown, a notice is to be sent to the party to whom the letter is addressed, and the delayed matter retained at its starting point till the required payment comes along. It would be difficult to overstate the inconvenience, annoyance and damage that will result from such a law, should it be enacted. Under the present arrangement, matter on which single letter postage has been prepaid is forwarded, and the balance is collected at the point of delivery. But little, if any, loss is occasioned, for even if the letter is not taken out, the amount paid will generally compensate for trans-portation. We have sufficient coufidence in the good sense of the House to believe that it will put its foot on this proposition.

Swepson Against Vance Pee Dee Herald.

We learn that George W. Swepson is working with might and main against Vance in Raleigh; and we are glad to hear it. It's proper that he-and all like him-should do so.

And then-let's see-it strikes us that an indictment, once dismissed by Greasy Sam Watts, has lately been re newed in the Criminal Court of Wake lately against this man Swepson. Wonder if that has anything to do with his

active canvass for Merrimon?
Can a cry of 'persecution' on the part of Gov. Vance towards the immaculate George W. be raised? Hardly, with effect; because we think, it was by a decree of the late Surreme Court that the indictment was brought up again, and the Governo is in no wise he, with all other honest citizens of the

The Stenographer is now an instituion, of the Virginia Legislature, and the pleasing result is that when the spread-eagle orator rises up to air his rhetoric and happens to catch the eye of the short-hand man, he at once condenses his remarks and sits down. If the presence of the Stenographer in public bodies will serve to curb the long-winded oratorical flights of such members as aspire to distinction in that way, then is he a benefactor indeed; and it might be well if our State Assembly would apply the moral to itself next month and emulate our sister.

A Sad Story of Failure.

The reports of the registers in bankruptey, for the last fiscal year, tell a sad story of business prostration re-sulting from Sherman's financial policy. The gross liabilities of bankrupts are stated at about \$220,000,000, with assets less than one-fourth of that amount, and dividends less than onetenth of the assets. Looking back upon this scene of ruin and disaster we can estimate some portion of the cost of "getting down to had pan."

Blaine Answered.

The able speech made by Senator Wallace, of Pennsylvania, Tuesday, is a complete answer to Blaine. He was one of six Senators who voted against the resolution. He voted against the resolution because, he said, "no practical result can come from the inquiry. The Constitution and laws as declared by the Supreme Court settle that. The second section of the fourteenth article of amendments to the Constitution is: "Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twentyone years of age in such State."

In the case of the United States vs. Cruikshank, 2 Otto, 542, and kindred cases, the Supreme Court, commenting on this article and construing it, say:

"The fourteenth amendment prohibits a State from depriving any person of life, liberty, or property without due process of law, and from denying to any person within its jurisdiction the equal protection of the laws: but it adds nothing to the rights of one citizen as against another. It simply furnishes an additional guarantee against any encroachment by the States upon the fundamental rights which belong to every citizen as a member of society. The duty of protecting all its citizens in the enjoyment of equal rights was originally assumed by the States, and it still remains there. The only obligation resting upon the United States is to see that the States do not deny the right. This the amendment guarantees, but no more. The power of the National Government is limited to the enforcement of this guarantee."

This is the decision of a court unanimous, with a single exception, and he a Democrat. If this be the law, how can we take representation from a State for what is done by individuals? The investigation, even if the facts be proved, is useless. The remedy is by a contest for the seat, and not by sec-

tional agitation." The "minority representation" idea in Blaine's speech-and its leading idea-he very conclusively answers. He showed that only twenty representatives were allotted to the Southern states because of the enfranchised negroes, and not thirty-five, as Blaine had stated. He said it was not true that the white voter of the South wielded more power than the voter of the North, "The first fallacy," he said, "in Blaine's theory is the bold assumption that the colored voters had no voice or power in the recent elections. Who gives any one authority to say this? Is it true that the Republican party possesses an indefeasible estate in every colored voter in those states? Have they no liberty of thought or right of independent action? Are their votes not to be counted unless they vote the Republican ticket? Such a statement as this is utterly unwarranted by facts, for we all know that in very many instances the colored voter is independent in action. Upon the Presidential vote of 1876 in those states the seventeen Democratic members elected had a total of 272,805 votes and their opponents had a total of 219,610. The minority were just as much represented as they are in any Congressional district in the North. They voted and they were out-voted. How unfairly the contrast is put. Iowa and Wiscons sin had, in 1876, a voting population of 540,108. Of these, 296,595, representing about 1,200,000 people, were Republicans, and 243,503, representing about 1,000,000 people, were Democrats. If the negroes who voted for the Republican candidates in the Southern states named are not to be counted, the Democrats who voted for their own candidates in Iowa and Wisconsin ought not to be counted. The Democrats elected in the South represent the minority there just as much as the Republicans elected in the North represent the minority there. It ignores Democratic votes and population North, and omits the pregnant fact that the colored voters South both voted and were counted in making up res

tled to representation (and the Repub-

9 Republicans and but 4 Democrats; 23, 120 votes, or 115, 000 population, could choose a Republican to Congress, while it required 53,291 votes, or 265,000 population, to elect a Democrat. The home of the senator-New Eugland with its six states—sends to this Congress 22 Republicans and 6 Democrats; 16,691 votes, or \$0,000 people, can elect a Republican member of Congress there, while it requires 49,321 votes, or about 250,000 people, to elect a Democrat. To the Senate, New England sends ten Republican and two Democratic sena-

tors. Upon the basis of the vote of 1876 it requires 35,721 votes, or 185,000 people, to choose a Republican senator from New England, while 147,963 votes, or 740,000 people, are required to elect a Democrat. The six great Middle states-New York, Pennsylvania, Ohio, Indiana, Illinois and Iowa-contain 3, 650,000 voters or about 16,050,000 of people, yet they have but twelve senators as against an equal number in New England for 663,000 voters and about 3,300,000 people. These are the results of our political system, and there is just as much reason to find fault with it in New England as in the South. We must abide its inequalities and imperfections for the much greater good it contains. Sweeping charges or partisan comparisons can do no good and must do harm. The only import ant question is, have elections North or South, been carried by fraud or violence? If they have, the incumbent holding by such a title should be ejected. The remedy is by contest under the statute. Orderly methods, sworn testimony, judicial inquiry, non-partisan judgment. These are the processes the people approve.

"The invective hurled at the seizure

of power by a solid South may be fitly answered by grouping the six great Middle States I have named and examining political results there. In this Congress (and it is worse in the next) these States, upon a total vote of 1,842,-212 Republicans in 1876, have 'seized' 75 Congressmen, while on a total vote of 1,804,841 the Democracy get but 46. Upon a voting majority of 37,871 the Republicans have 'seized' 29 Congressmen. If we add to these States New England, we find that 2,209,431 Repubican voters get 97 Congressmen, while 2,100,268 Democratic voters get 52. In these twelve States 109,163 Republican majority enables that party to seize 45 Congressmen. If we call a Democratic white voter North the equal of a Republican white or negro voter North, and as such entitled to equal political power, it appears that each 2,425 black or white Republicars North have chosen one of these 45 Republicans to Congress. Or, upon the same basis of equality, each 12,000 people who are represented by these voters have 'seized' Republican Congressman. Or, if we generalize the whole, we find that in these twelve States 22,777 black and white Republican voters, representing 113,885 people, 'seize' a Congressman, while it requires 46,672 Democratic voters, representing 233,360 people, to elect one.

"Are not these denials an abridgment of the right to vote, so fully guaranteed by the fourteenth amendment, if the interpretation contended for by the Senator from Maine be correct? The negro voter was provided with a tax receipt, paid for by the men who claim to own him, North and South, and the white man too poor to pay his taxes was driven from the polls. Federal authority entrenched itself on the election ground in the room of the official whom common right and ancient custom places there. And the Democratic party polled at that election but 53,000 votes, against more than 62,000 polled in 1876. Would it be just to deprive Pennsylvania of her fair share of representation in Congress by reason of these deeds of unscrupulous political managers? The remedy for these wrongs must come through the wrath of an outraged people. It may come tardily, but it will come surely."

BLAINE is one of the smallest of th small politicians in Congress. He made a characteristic reply to Senator Merrimon's speech. For contemptible eva sion we commend it. He said:

"There is much I might say in reply to the honorable Senator from North Carolina, [Merrimon] but I will not detain the Senate. I remember that in his own State many years ago there occu. red an incident that has given us a word familiar in our American vocabulary. A representative was making a loud harangue in the house of delegates, but was not disturbed by the impatience or inattention of his fellow members, because he was talking for "Buncombe." I think the Senator from North Carolina was probably addressing an assemblage soon to meet at Raleigh rather than the Senate that is before bim to-day."

"THE so called cipher dispatches envolves the private affairs of a person not in official life," said a distinguished member of the Petter Committee to our Washington representative. "We have no right to inquire into private suits. If negroes are voters, and entiaffairs of individuals. Any cipher or lican party has made them so), then other dispatches bearing upon the electhey are as much entitled to be counted tions in South Carolina, Florida or as are the minorities in any district in Louisiaua will receive prompt attenthe Union. If the senator from cause they are afraid. No, the Potter Committee is not dead. If so it will Maine will have one result, he must prove a lively corpse."

FEARS are entertained by the tobacco representatives in Washington of an Mr. Wallace continued: "If it be adverse report from the Senate Committee on Finance on the reduction of sion of the whole theory of Republican the tax. It is quite certain, our Washington representative thinks, the comwholesale disfranchisement of the mittee will report adversely. However, Democratic masses North by skillful a well-informed tobacco man who has manipulation of political power? Lever Feed Cutter,

Something entirely new and novel in the feed cutter line. With this cutter the feed in cut off diagonally, instead of square across, as is the case with all other cutters at the same time our cutter has a draw cut, acting exactly on the same principle that a kutfe is used is cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

Democracy and Resamption. Washington Post.

John Sherman is credited with says "There is nothing in the way of resumption except the Democratic arty, and that is always in the way.' As usual, John lies. The Democratic party has never opposed resumption. has never opposed a specie basis for urrency, and has never favored the fiat nnasy. It has, however, opposed ohn's thumb-screw method of bringing resumption about. It has opposed the National bank monopoly, whose ol John is, and has favored the substitution of greenbacks-always with a specie basis-for bank notes. In the resent case the constitution of the ountry was such that the sure return of public prosperity was bound to bring mption with it either by the aid of. in spite of the treatment of Dector ohn Sherman and his fellow practimoners. The result clearly shows that e present prospect of financial recova mas been brought about in spite of sherman. So far from the Demcratic party being "in the way" of res imption, it is the Democratic party thich has pushed it forward and can stly claim the credit of it. But for remonetization of silver, a distince vely Democratic measure, and severe ocratic economy in the granting of blic appropriations, there could naw no hope of a resumption of specie syments at the time fixed for it by The Democratic party has not tood in the way," and if resumption mes to us in two weeks' time, the mocratic party, and not John Sherman will have achieved it.

A Check on the Chinese.

Democratic members of the ouse are decidedly in favor of enactg some law for the restriction of inese immigration before Congress shall adjourn. Last session the Committee on Education and Labor reported a joint resolution, which was adopted, requesting Mr. Hayes to op n prespondence with China and Great Britain for the purpose of procuring modification of the Burlinghame treaty. The committee about the same time agreed upon a bill imposing rigid reictions upen the importation of inese, but they withheld it to await . Hayes' action upon the joint resoon, preferring to accomplish this by diplomacy, if possible. The olution was duly transmitted to . Hayes, but he has never paid any attention to the request it contained, and now the House committee has determined not to delay any longer. Whenever the committee is called Representative Willis, of Kentucky, will report the bill, which prohibits any ves el from bringing more than en Chinese to this country at one me, under heavy penalties. It also mposes a tax upon Chinese immigrants, and contains other provisions ch will effectually check the flow of celestials to this country. It is expected that this bill will be reported on after the holidays, and the indicaas are that it will pass.

Public Economy. Elizabeth City Economist.

The question of Economy in the administration of the State Government North Carolina is attracting public iblic attention in the State, and the gislature will be called on examine subject and determine where retreuchment shall take place.
Sume rules that govern private affairs are applicable to public affairs. When the pecuniary circumstances of a privale individual become tangled and involved, he naturally, and at once turns to economy in the adminstration of his affairs as the chief remedy for the evil that is upon him. Formation of a New County. Messenger's Johnston County

Our prospects for a new county are growing stronger every day, and at the next meeting of the Legislature an ap. plication will be made and urged for such. In our own county a great many during court, have to ride from twenty. live to thirty miles, and in Sampson county it is the same way, if anything worse. The proposed new county is to be taken from Sampson, Johnston and Wayne, and the name preferred in honor of Wayne county's worthy son Hon. W. T. Dortch. We are determined to move Smithfield to Selma, and the fight will be as it was between Goldsboro and Waynesboro some thirty years ago.

Give us a Fence Law.

Albemarle Enquirer. The fencing in North Carolina is valued at \$10,000,000 and the stock at \$2,000,000. In other words it takes \$5 worth of fencing to protect crops from a worth of stock. The cry of hard times goes up continually from the country, and yet millions of dollars are spent to keeping up useless fences and housands spent in keeping wor hless cur dogs, whose real use is to prevent the raising of sheep and barking at the passer by.

It is a plain fact that twenty-five Per cent. of the deaths in our larger cities are crused by consumption; and when we reflect that this terrible disease in its earlier stage will readily yield to a bottle of Dr. Bull's Cough Syrnp (costing 25 cents), shall we condemn the sufferers for their negligence, or pity them for their ignorance?

THE GENUINE DR. C. McLANE'S

Celebrated American

VERMIFUGE.

WORM SPECIFIC

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequent-ly tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, not capable of doing the slightest injury to the most tender infant. The genuine Dr. McLane's VER-MIFUGE bears the signatures of C. McLane and Fleming Bros. on the wrapper.

A CERTAIN AND SPEEDY GURE, FOR SCROFULA.

FACTS ARE STUBBORN THING

TRADE MAI K

TRADE MARK (Registered.) A BRIEF HISTORY:

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Serofula with Mrs. Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kitztell Springs. Not ing dia him any good. At Kitztell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe, and Dr. — wrote to Mrs. Person's recipe. and br. — wrote to Mrs. Person's sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured bim he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless the se old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON : Mrs. Joe Person:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a Tonic and Blood Purifier IT has no equal. Hoping that you may be spared for many years of usefulness, I temain,

Very respectfully.

AS A TONIC AND ALTERATIVE MOORESVILLE, IREDELL Co., N. C.
Being desirous of adding my testimonia to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine. Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL,
Respectfully your friend,
MRS, H. T. BROWN. MOORESVILLE, IREDE: L Co., N. C.

MRS, H. T. BROWN.

Sept. 26. 1878, THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. O. MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scholula. I hardly know how to express my gratitude to you for caring my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me, Yours truly,

WM. H. ARRINGTON. MRS. JOE PERSON:

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very emine t physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. Aft-ri returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties, My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes 'acreased, my low spiritedness fled before the remedy, and I am now enloying splendid health and a min good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects, It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made wild commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all why are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and asting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, tryit an "It will Cure if Fairly Tested." C. H. BECKWITH.

KITTRELLS, N. C. My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purnier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases. I believe it will ultimately prove to be of benefit in all cases arising from impurity of he blood' and probably for other diseases.

The Penitentiary.

The Board of Directors of this institutien is now in session. It is not thought any more convicts will be sent west until spring opens. The number of convicts at the penitentiary on the 1st of December was 349; at work on the Western North Carolina Railroad, 592; on the Western Railroad, 99; on the Chester and Lenoir, 48, and on the the Georgia and North Carolina, 28, making a total of 1,116.

A Busy Day.

Yesterday was such a day as merchants delight in, for the streets were full of bustling purchasers, and trade was better than for weeks. Availing themselves of the opportunity of the holidays, great numbers of people from this and adjacent counties, are coming in and laying in supplies of all kinds. To-day promises to be a particularly busy one, and merchants may be prepared for it.

A Poetic View. So much has been written about the sheep husbandry question that the prose side of it is worn threadbare. But now that "awfully clever" Dessey Battle, of the Tarboro Southerner, has invoked the aid of the muse. She has descended and inspired him with the

following versicle: 'Mary had a little lamb. But she gave the thing away, Knowing with all the dogs around. Sh ep husbandry wouldn't pay."

The Colored Deaf, Dumb and

At the Concert given by the colored the pieces rendered in the sign language were very amusing. The singing of the blind was good. The proceeds raised will go to furnish a Christmas tree for the colored pupils, the amount being about \$30. Mr. Cudger informed the audience that the school would give a free entertainment in June next.

THE CITY'S DANGER.

Fierce Flames-Destruction of Property--Efforts of the Fire-

men-The Want of Water. At 12:30 a. m., the alarm of fire was sounded for the central or business district of the city, and a rush of flames and sparks from the 11 story brick store on Hargett street, occupied by J. Y. Jackson as a clothing and dry goods store, located the scene of disaster. The building adjoins Williams & Haywood's drug store, and the fire was first discovered by Mr. W. G. Thomas, a clerk in that store, and Mr. Dolly Thomas, of the Louisburg Times. These two ran out and gave the alarm, and officer Scales rang the bell while officer Parker ran to the fire. He states that passing through an alley he found the rear door of the store open and the back tence partly torn away. The engines hastened to the scene. The Chemical was first and did good service. The Victor and Rescue next got on streams, while the Hook and Ladder and Bucket companies came up and did good work. A room in the drug store in which slept Messrs. Ed. S. Pescud and Eugene Harrell caught on fire from a flapping curtain, and it was feared that the store would go too. The interior of Jackson's store was white with the flame, but the firemen worked with a will. The iron shutters gave trouble, and the building burned ike a stove. In about an hour the fire gained, apparently, the roof falling in, and a pillar of flame rose in the air and cast heavy sparks blocks away. Some of the merchants near moved portions of their stocks, Zacharias nearly clearing his store, while Cooley & Jones on Hargett street, and Williams & Haywood removed many goods. The steady fall of rain and the quick form-

walls. The value of the stock lost is stated by Mr. Jackson to be over \$18,000, and on ed, Try it. For sale by all grocers this he had some \$5,000 insurance. Williams & Haywood estimate their loss at about \$2,000, while the removed goods of Zacharias and Cooley must be considerably damaged. The most intense excitement, prevailed as it was once thought the entire square would be lost. Too much praise cannot be given the firemen, who did all that men could. The eng nes moved from cistern to cistern, and the lack of water was a dread fact. The fire is suspected to be of incendiary origin, and some say it was the after work of robbers.

How They Waste Time.

The clever local of the Charlotte Observer thus discourses, anent a custom which obtains here as well as in his own city: "Tell you where your farmers make a big mistake," said an observant stranger, the other day; "they bring a load of wood to town and allow their wagons and teams to stand in the street all day waiting for some body to bid 25 cents more on the load, when by selling it it a reasonable price at or three others. The Excursion To-day.

This morning the excursion train rom Weldon and all points on the line of the Raleigh and Gaston railway, will reach the city. The idea is to allow the people living anywhere on that road to visit this eity and at the same time lay in their supplies for the Holimerchants should be ready to give their visitors a genuine welcome. There are some "solid men" down that way and there is every probability of many purchases being made. It is expected that numbers will come in on the train, unless the weather should prevent.

Military Gossip.

There have been a good many inquiries as to whether the colored troops are to be ordered here, on the 1st of January, as they were last year. They will not be so ordered, however, although there may be one or two visit-Row; they have been impassable for ing commands in the city. Many special aids to students, in addition to a full pronouncing and defining vocaousary, make the above-named books, in the opinion of our most distinguished educators, the mist complete as well as by far the cheapest Dictionaries of our language.

Worcester's School Dictionaries are based upon the quarto, which is preferred over all others by eminent scholars and men of let ters. The series is a nirably adapted to use in Schools. Academies, &c.

Liberal terms for introduction we desire that sanford and Worcester be examined by County Boards and principals of private schools. Correspondence solicited:

We invite attention of Teachers to Chauvenet's Mathematics, Cutter's Physiology, in a word, all our School publications. Circulars and descriptive catalogue furnished on application.
